

JapJunk.net Site Updates!

New JapJunk.net Forum and Honda Parts & Bike Store!!

JapJunk.net now has a brand new honda motorcycle forum . We decided to upgrade the forum software to something a little more powerful and flexible. This will allow us to do a few new things that we have planned in the near future.

We also decided to take down the Honda marketplace and instead add a Honda Motorcycle Bike and Parts Store . This store will be a continually growing shop that will have great deals on both Honda motorcycles and parts. Items are updated every minute with the best deals.

Lastly, with the removal of the free Honda marketplace classified section we plan to in the very near future add a classifieds section to our forum . There you will again be able to buy and sell items absolutely free.

Check back often for the latest and greatest in Vintage Honda Motorcycles!
